Own manufacturing

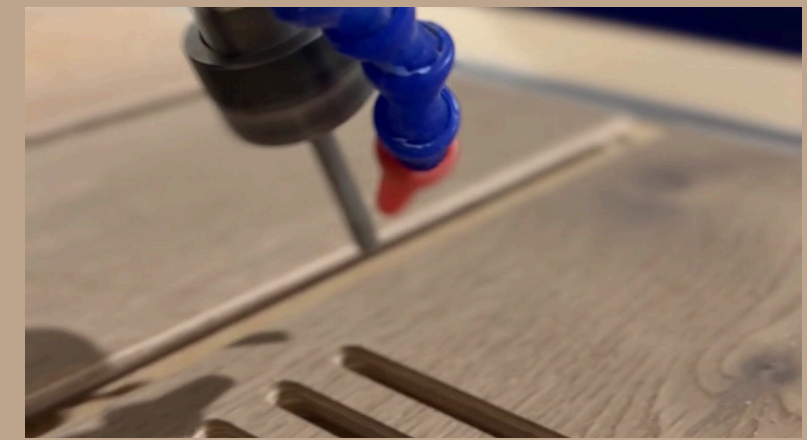

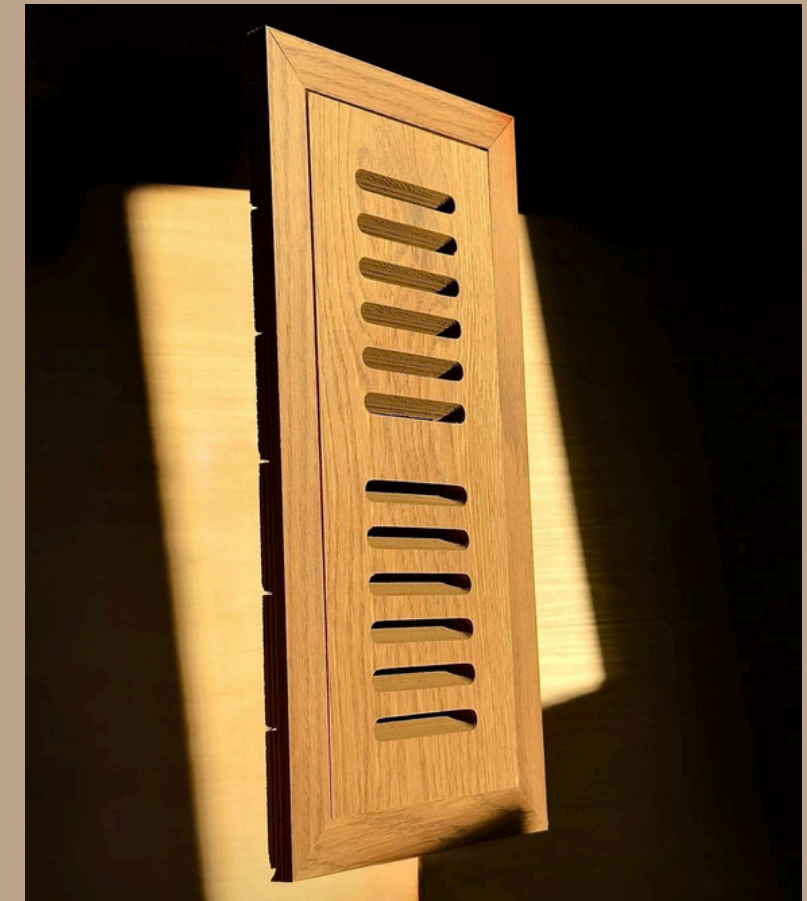

We are a leading manufacturing company in Calgary, AB, specializing in top-quality nosing, vents, reducers, t-moulds, and stair treads.

With a focus on innovation, sustainability, and customer satisfaction, our products are trusted by architects, contractors, and homeowners in Calgary and across Alberta.

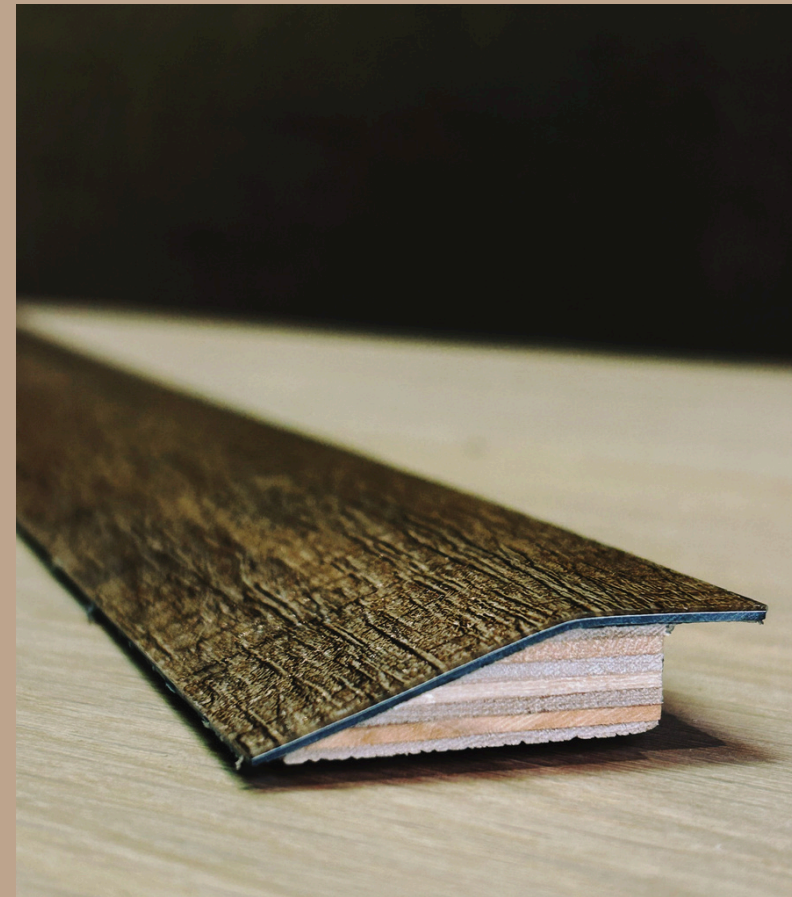

Vents

Our vents are designed to match your existing flooring, creating a seamless and improved look. Available in standard sizes of 3x10 and 4x10, each vent comes with a damper and built to prevent any damage or warping in long-lasting performance and to blend perfectly with your floors.

Reducers & T-Moulds

Seamless transitions between different floor types with our precision-engineered reducers, ensuring a smooth look and our versatile T-moulds, which are perfect for joining two flooring surfaces of the same height - a perfect match for your flooring needs.

Nosing

Get your stairs with our durable nosing solutions, designed for safety and style. We are manufacturing nosings from engineered or solid hardwood, vinyl, or laminate flooring. With square, round, or curved designs available, you can choose the option that best fits your needs and matches your design project.

Stair Treads

In our manufacturing facility, we can make custom stair treads from hardwood, which can be stained to match the color of your flooring. They are durable, safe, and designed to fit perfectly to your new staircase.

**TO ENHANCE YOUR SPACE
WITH PRECISION AND STYLE.**
